

# Pocono Mountain Charter School

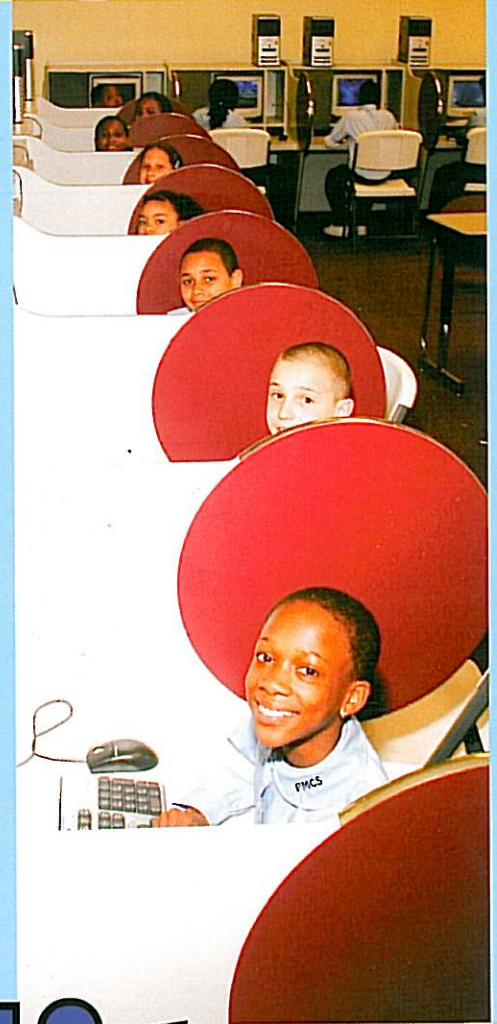

Provides a Private School Setting for Free!

Unlike any other public school in our area, Pocono Mountain Charter School not only offers all academic subjects aligned to Pennsylvania State standards, but a vast variety of other programs for the students that attend the school.

Pastor Dennis Bloom, CEO and Founder, and his wife Grisel Bloom, Assistant CEO and Director of Facility Operations, opened the school four years ago with the intention of "addressing the needs of each individual student." Class size is smaller and student-teacher ratios are better than at other public schools. The school's current enrollment is 350 students. Instruction is provided to children in grades K through 12, with full-time Kindergarten offered. The school offers each student instruction in Dance, Music, Foreign Language, Technology and Physical Education, in addition to a variety of clubs and sports activities.
